

Department of Transportation - Federal Aviation Administration
Supplemental Type Certificate

Number SA191NW

This certificate, issued to TRAMCO, INC.

certifies that the change in the type design for the following product with the limitations and conditions hereinafter specified heron meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations (See TCDS A16WE) and Part 121.539 of the Federal Aviation Regulations.

Original Product - Type Cert. No.: A16WE
Make: Boeing
Model: 737-247

Description of Type Design Change:

Installation of modified two-passenger seat and underseat baggage restraint per FAA sealed Air Repair, Inc. Drawing List No. 001.

Limitations and Conditions: The approval of this change in type design applies basically to the above model aircraft only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: May 19, 1975

Date issued: May 13, 1977

Date issuance: June 15, 1975

Date amended:

By direction of the Administrator
Charles E. Bradsher
